

Management & Technology

your vision. Delivered.

SMS Management & Technology is Australia's leading consulting, technology services and enterprise solutions Company employing over 1400 professionals.

**SMS Management & Technology:**

SMS Management & Technology (SMS) [ASX:SMX] is Australia's leading consulting, technology services and enterprise solutions company employing over 1,400 professionals.

Established in 1986, SMS is best known for delivery excellence. SMS helps its clients improve their business performance through the implementation of strategy and the delivery of business and technology projects. Industry expertise spans the financial services, ICT, government, defence, health, utilities, mining, gaming and infrastructure sectors.

SMS is a long standing provider of business services to Australian and selected international clients. SMS provides business performance improvement, technology alignment, organisational mobilisation and project delivery services that transform our clients' business.

**Delivering results through specialisation**

SMS Management & Technology specialises in improving operational performance and IT delivery. We do this by improving the way our clients use people, processes and technologies. This means we address everything from business integration to compliance, process improvement to change management and technology strategy to systems integration and application development.

In short, we make things happen.

We have the experience and the industry expertise to ensure real, measurable and profitable outcomes for your business. SMS... 'your vision. Delivered.'

**What we do**

SMS implements solutions and delivers business transformation services through:

SMS Consulting – Experienced Professionals

Technology Services – Intelligent Technology Implementation

M&T Resources

Requirements analysis, design, systems integration and project delivery for Health Care

SMS has delivered major process and organisational change initiatives. We have designed and delivered complex ICT systems, together with strategic planning, for clients including the new Australian Health Practitioners Regulation Authority. We have been providing strategic consulting advice and business analysis services for the Unique Healthcare Identifiers (UHI) program within the National E-Health Transition Authority.

SMS's experience in the industry includes:

- ICT strategic planning and implementation for the establishment of the Australian Health Practitioner Regulation Agency (AHPRA)
- Consulting advice and business analysis services for the Unique Healthcare Identifiers (UHI) program within the National E-Health Transition Authority (NEHTA)
- Information and ICT strategic planning, including recent clients, SA Health and Mercy Health
- Process design, change management and development of training solutions for major Australian organisations
