

message »»»xchange.

MessageXchange is quickly becoming the leading "Cloud-Computing" B2B Integration Service in the World. Our rapid growth is due to 3 major advantages:

1. Better product and functionality;
2. Faster Implementation, which equals
3. Significantly lower costs for our customers.

We have pioneered the "Software-as-a-Service" or "Cloud-computing" model over the past 10-years and have developed a major technology advantage over our competitors. We frequently save our major customers many millions of dollars. All of our customers gain a significant advantage by being able to use the most advanced technology platform at amongst the cheapest rates on the market. We support customers in the Retail, Financial Services and Health sectors.
